

Whereas, United States Senators of Virginia and the United States House of Representatives from the 1st, 3rd, 4th, 6th, 8th, 10th, and 11th Virginia Congressional Districts have introduced legislation to provide cost-share grant funding to allow Bay watershed sewage treatment plants to substantially reduce their nitrogen pollution by installing NRT: Now, therefore, be it

Resolved by the Senate, the House of Delegates concurring, That the Congress of the United States be urged to adopt legislation in support of funding for nitrogen reduction technology (NRT) in the 108th Congress; and be it further

Resolved, That the Clerk of the Senate transmit copies of this resolution to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Virginia Congressional Delegation so that they may be apprised of the sense of the General Assembly of Virginia in this matter.

POM-98. A resolution adopted by the House of Representatives of the State of Michigan relative to the Funding of Transportation Initiatives by the Federal Government; to the Committee on Environment and Public Works.

HOUSE CONCURRENT RESOLUTION NO. 5

Whereas, for several decades, Michigan has sent much more federal highway tax money to Washington than it has received in return. This imbalance has helped our nation build the country's highway infrastructure. With the national infrastructure largely completed, the continuation of the imbalance has created a serious challenge for Michigan and other "donor states"; and

Whereas, Michigan, which typically loses between \$150 million and \$400 million each year by sending more to Washington than it receives, is severely hampered. The unfair practice of contributing hundreds of millions of dollars beyond the amount we receive to fund projects in other parts of the country makes it far more difficult for Michigan to maintain the quality of its highways. The loss of funding also represents a serious loss of economic activity; and

Whereas, the chairman of the House Transportation and Infrastructure Committee and the chairman of the Senate Environment and Public Works Committee in Congress have proposed a major change in how federal highway funds are distributed. They have called for a funding formula that would guarantee that all states receive a minimum of 95 percent of what they each contribute to the federal highway program; and

Whereas, the potential impact for Michigan of a guarantee of at least 95 percent of this funding would be very significant. Even as the economy calls for more careful public expenditures, this proposed policy change would help Michigan and bring greater fairness to the issue of transportation spending. Citizens, visitors, and businesses of this state would benefit enormously from this long overdue policy: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That we memorialize the Congress of the United States to enact legislation to provide that all states receive a minimum of 95 percent of transportation funds sent to the federal government and to urge Congress to make the return of transportation money to the states a higher priority within existing federal revenues; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United

States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

POM-99. A resolution adopted by the House of Representatives of the State of Michigan relative to reauthorization of the Transportation Equity Act; to the Committee on Environment and Public Works.

HOUSE RESOLUTION NO. 23

Whereas, the Interstate Traveler Project is an elevated maglev (magnetic levitation) rail mass transit system that is based upon a conduit cluster concept powered by hydrogen and solar power. The project promises to provide travelers with a clean, quiet, safe, reliable mode of transportation. The intent of the project is to create the world's first switchable maglev rail network that will provide inter-urban/inter-city pedestrian, automobile, and light freight transit services. The project will simultaneously produce, store, and distribute hydrogen, which will not only serve as an alternative energy resource, but also will give Michigan's automakers the incentive to produce hydrogen internal combustion engines, fuel cell cars, and the manufacturing opportunity to build maglev rail cars; and

Whereas, by fully integrating with the interstate highway system, existing transportation infrastructure, and mass transit systems, the Interstate Traveler Project seeks to reduce traffic congestion and air pollution while improving traffic safety and efficiency. The Interstate Traveler Project substations will utilize the existing interstate highway system's entrances and exits, providing a seamless link of private automobiles, pedestrian traffic, existing municipal bus routes, and tax services. These substations will also support the hydrogen distribution system, as well as fiber optics, water, electricity, and other utilities. Although the Interstate Traveler Project is ideally suited for the interstate highway system, it may also be integrated with existing and abandoned railroad right-of-ways or along other appropriate lands; and

Whereas, the Interstate Traveler Project is consistent with the 2003 State-of-the-Union address which called on Congress to appropriate \$1.2 billion for hydrogen fuel cell technology: Now, therefore, be it

Resolved by the House of Representatives, That we memorialize Congress to enact legislation to support research, development, and construction of the Interstate Traveler Project through the reauthorization of the Transportation Equity Act of the 21st Century (TEA-21) and/or other related federal programs; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

POM-100. A joint resolution adopted by the Legislature of the State of Washington relative to veterans with disabilities; to the Committee on Veterans' Affairs.

SENATE JOINT MEMORIAL 8008

Whereas, many American service members have sacrificed their lives for the United States; and

Whereas, many of these service members have retired from active duty and 28 percent of the retirees were found to be disabled; and

Whereas, those retired disabled service members are required by law to have their retirement income reduced dollar for dollar to pay their disability compensation; and

Whereas, retired veterans make up approximately ten percent of all veterans liv-

ing in this state and the retired disabled veterans make up approximately 36.6 percent of the retired veteran population of this state; and

Whereas, concurrent receipt of both the retired pay and the disability compensation pay would add financially to the welfare of this state as well as the veterans: Now, therefore,

Your Memorialists respectfully pray that the President, in acting upon the recommendations of the National Service Organizations, fund the enacted law for all disabled retired veterans. Your Memorialists further pray that Congress and the President affirm the debt owed these veterans and pass a budget to furnish the veterans their concurrent receipt: Be it

Resolved, That copies of this Memorial be immediately transmitted to the Honorable George W. Bush, President of the United States, the Secretary of the United States Department of Veterans Affairs, the Secretary of the United States Department of Defense, the President of the United States Senate, the Speaker of the House of Representatives, and each member of Congress from the State of Washington.
